

Iconasys 360 Ring Photography Mount Kit

Set-up Guide

With your purchase of the 360 Ring Photography Mount Kit, you would have received:

- A. Stem Riser (mounts via magnet to center of turntable)
- B. Black Alligator Clamp
- C. Silver Alligator Clamp
- D. Silver Alligator Clamp Mount
- E. Stem Riser Screw Mount (if used with turntable collar mount included with 360 Hanging Kit)

Getting Started with the 360 Ring Photography Mount Kit

A. Mount via Magnet:

On the bottom of the turntable stem is a magnet that can be connected and secured to the center stem of the Jewelry Turntable or the motor collar on the Silver MID, LRG or XL Turntables.

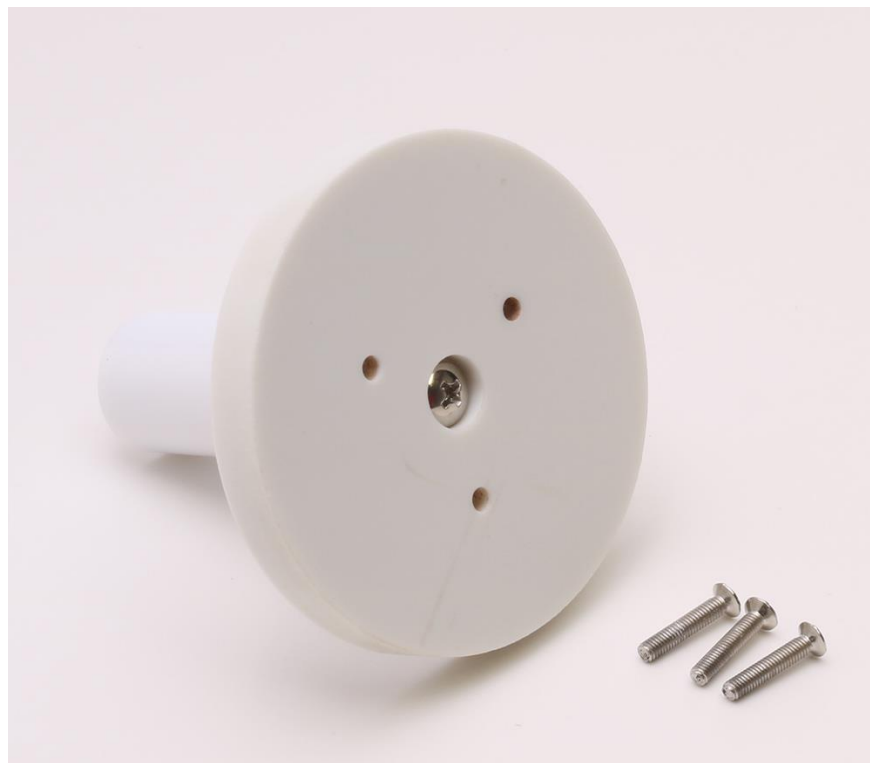

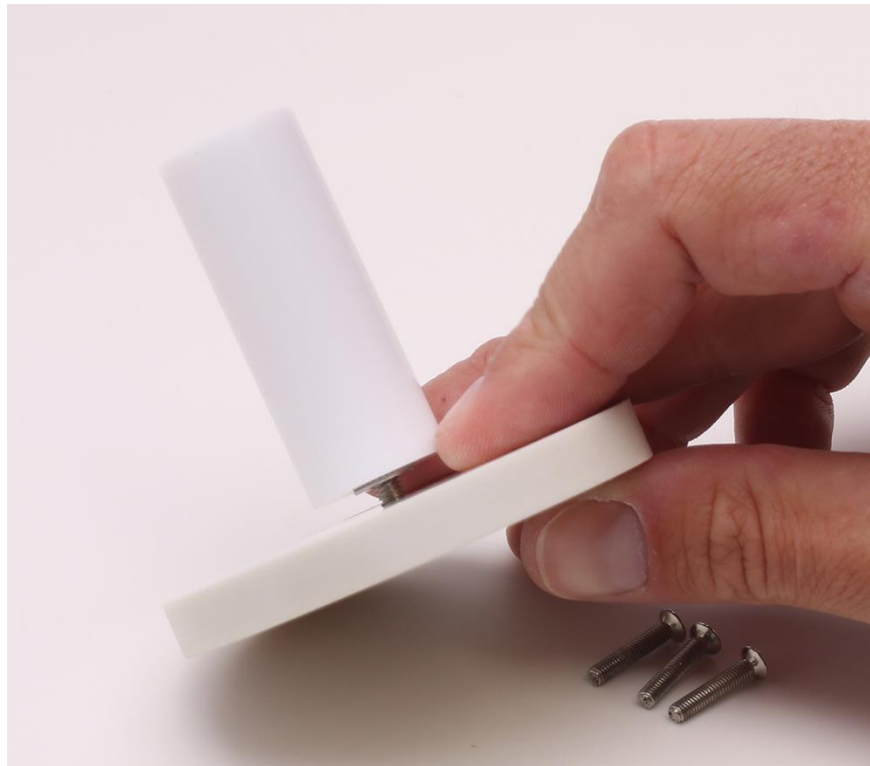

**B. Mount via Turntable Collar Mount on Silver MID, LRG and XL Turntables
(collar mount piece only available with purchase of 360 Hanging Kit):**

1. Remove Turntable top from Silver MID, LRG, XL Turntable:

2. Connect the 'Stem Riser' to the 'Turntable Collar Mount' via center screw (insert screw in through bottom of the Turntable Collar Mount):

3. Connect Turntable Collar Mount to Turntable Collar (using 3 screws):

Connecting Alligator Clip to Stem Riser:

A. Black Alligator Clamp

Simply insert the black end into the Stem Riser Hole:

B. Silver Alligator Clamp

Screw the Silver Alligator Clamp Mount into the Stem Riser, then insert the Silver Alligator Clamp into the mount:

After connecting Alligator Clamp, insert ring or object to secure in place.
